

Try the **features** of the app:

1. click **“Signup here”** and **register** by choosing a username like “firstname.lastname” (all lowercase!!!)
2. on the home screen, try to **swipe through the events** (right=I would like to participate, left=I’m not interested)
3. on the home screen, press the **“Events” button** (top right) to switch to the spotted people view and **swipe** through the **spot people** (right=that’s me, left=that’s not me)
4. now on the home screen, press the **“People” button** (top right) to return to the events view and try clicking on the **profile picture** of a user in the event you are viewing (preferably **mattia.menegale**).
5. (on their profile) **view** all the **sections** of Mattia’s **profile** (by pressing the respective buttons)
6. (from their profile) press the **green “Meet” button** to add Mattia to your contacts and leave an **emoji review**.
7. (from their profile) try to send a **message** to Mattia by pressing the relevant button on his profile.
8. in the bottom navigation bar, press the **“+ Spot” button** and then the **“Events” button** and try to **create an event** (it’s just a test! you don’t actually have to go).
9. in the bottom navigation bar, press the **“+ Spot” button** and then the **“People” button** and try to **spot a hypothetical person** you saw around (it’s just a test! feel free to make it up).
10. If you want, try the rest of the app at your leisure.

Please leave a **feedback** about your **experience** through this form (we will use it to improve the app as you like): <https://forms.gle/aCYVk48xvm9deF1E7>
